

About Us

External Quality Assurance Scheme (EQAS) is one of the valuable tools to assess the performance of laboratory and their attainment of quality service to generate accurate results. ICMR-NARI has established a Proficiency Testing Provider Unit for providing external quality assurance (EQA) to the Indian laboratories working in the field of HIV. The EQA is being provided for serological diagnosis of HIV infection and CD4 count estimation.

The institute has been accredited by NABL, India as a proficiency testing provider for HIV serology and CD4 Count Estimation as per standard ISO 17043:2010.
